Make your own Super Teddy Bear for National Teddy Bear Day!
Follow the instructions on the separate sheet.

Origami Teddy Bear

Side 2

National
Teddy Bear
Day

Make your own Super Teddy Bear for National Teddy Bear Day!
Follow the instructions on the separate sheet.

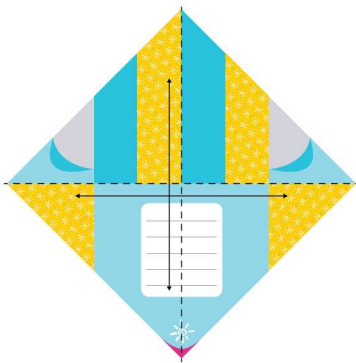

Origami Teddy Bear

Instructions: Part 1

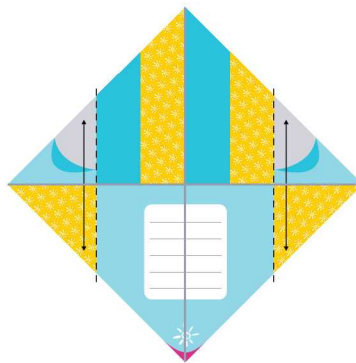

Print the origami sheet on two sides of the same piece of paper. Cut down the thick black line so that you have square sheet. If you would like to, write a message in the white box on Side 2, then follow the instructions below to fold your origami!

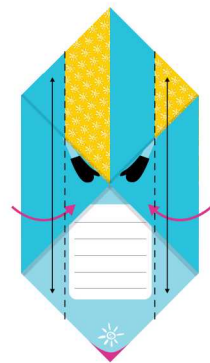

- 1** Place the sheet so that Side 2 is facing up and the sunshine symbol is at the bottom

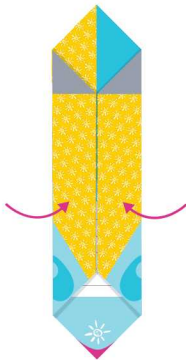

- 2** Fold down the horizontal dotted line, open up, then fold across the vertical dotted line, then open up again so that the sheet is flat

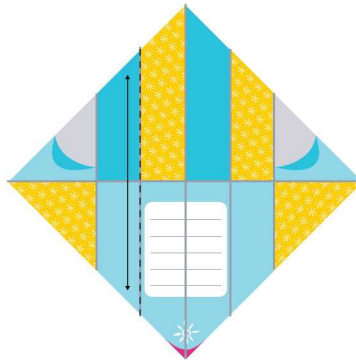

- 3** Fold the two sides inwards at the dotted lines, to meet in the middle

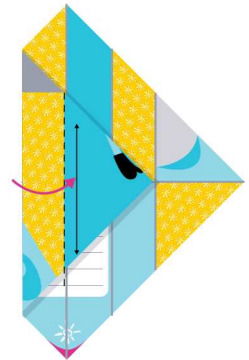

- 4** Fold the two sides inwards again at the dotted lines, to meet in the middle

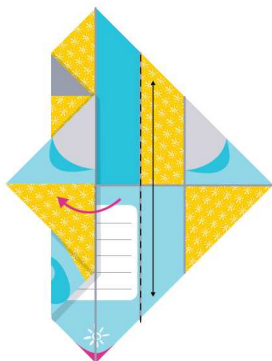

- 5** Open up all folds so that the sheet is flat again

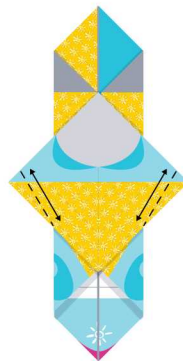

- 6** Fold the left side inwards at the second dotted line

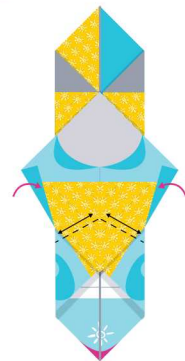

- 7** Fold the flap back, down the dotted line

- 8** Repeat step 6 & 7 on the right side

- 9** Fold up the little ends of the front flaps along the dotted lines

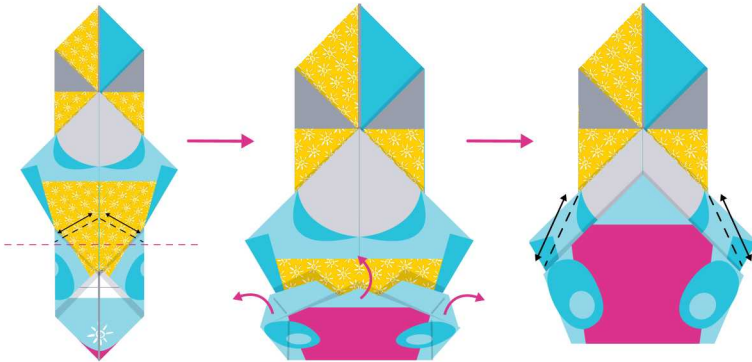

Instructions are continued on the other side.

Origami Teddy Bear

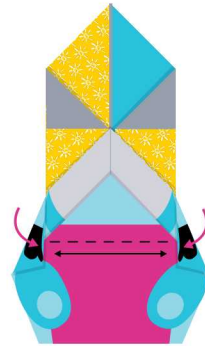

Instructions: Part 2

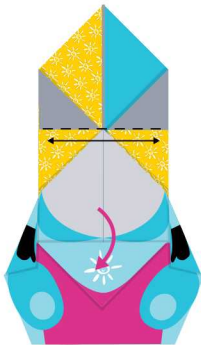

10 **(The hard bit!)** Fold up from the bottom (you will see a dotted line at the back showing where to fold), whilst also fanning out the inside left and right flaps by creating folds at the diagonal dotted lines. *You don't have to be completely accurate but try and make sure the bear's feet are visible*

11 Fold the tips of the widest flaps down the dotted lines to reveal the bear's hands. *They should fold on top of the bottom flap to keep it in place*

12 Fold down the top flap along the dotted line, to reveal the sunshine symbol

13 Fold down the top flap along the dotted line, to reveal the bear's face

14 Fold the chin of the bear along the dotted line and tuck underneath

15 Fold each of the ears behind (along the first dotted line) then fold forward again (along the second dotted line)

16 Fold a portion of the bottom of the bear (below the feet) behind

17 FINISHED!
