1 Cut out the whole square sheet for the bookmark you want to use.

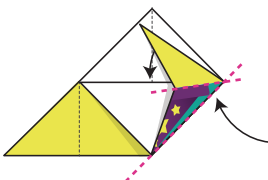

2 Place this sheet face down, so that the bottom of the design is at the TOP.

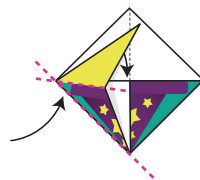

3 Fold the bottom of the sheet up to meet the middle, then fold the front flap down.

4 Fold one side in across the diagonal line, then fold it in half vertically so that you can tuck it inside the flap.

5 Fold the other side in across the diagonal line, then fold it in half vertically so that you can tuck it inside the flap.

6 You have created your bookmark! Use it on the corner of a page to mark your place in your book!
