

Thanks to supporters like you, in 2023 we granted an amazing...

# 358

magical wishes

That's 358 jaw-dropping moments for families of seriously ill children. These wishes mean children get a moment to think about nothing else in the world but their happiness. It's a chance for them and the whole family to forget about doctors and treatment.

“She turned to me after the concert and said it had been the best time of her life!”

# Delilah's wish

Rays of  
Sunshine

7-year-old Delilah was diagnosed with a High Grade Medulloblastoma in 2022, and underwent multiple intensive and invasive treatments, spending months in hospital. Delilah and her mum Caitlin kept their spirits high by singing. In particular, they loved singing Pink songs together. When Rays of Sunshine asked Delilah what she wanted her wish to be, there was no question that Pink was top of her list. Our Wish Granters organised a special trip to see Pink live and they sang their hearts out together like they always did in hospital.

The magic wouldn't be possible without YOU. Thank you for your support.
