Follow the instructions on the separate sheet.

Origami Bear Face

Side 2

National
Teddy Bear
Day

Make your own Super Teddy Bear for National Teddy Bear Day!
Follow the instructions on the separate sheet.

Origami Bear Face

Instructions

Print the origami sheet on two sides of the same piece of paper. Cut down the thick black line so that you have square sheet. If you would like to, write a message in the white box on Side 2, then follow the instructions below to fold your origami!

1

Place the sheet so that Side 2 is facing up and the bear's nose is at the bottom

2

Fold down the middle dotted line (keeping the message box inside)

3

Fold the two sides inwards at the dotted lines

4

Fold the two sides back outwards at the dotted lines

5

Fold the two little tips inwards at the dotted lines

6

Turn the whole origami over

7

Fold one of the bottom flaps up so you can see the bear's nose and chin

8

Fold the top of the nose and the bottom of the chin and tuck both underneath

9

Fold little corners of the top left and top right of the head and tuck underneath.

And your Super Teddy Bear is finished!
